

Post Protectors Specification

Post Protectors are made to the highest specifications:

- High quality and impact absorbing foam is 50mm thick.
- RX 28-150 foam is flame retardant, CFC free and tested to Crib 5 standards.
- The durable, waterproof, wipe clean covers are available in 16 colours.
- Covers are made from rip-stop 610gsm PVC.
- Flame retardant PVC is fire tested to BS5867-2 standards.
- Round, square or rectangular.
- Any size, any height.
- The pads are attached via heavy duty Industrial Velcro down the back.
- Manufactured here in the UK.
- Supported by a full, reasonably priced printing service should you wish to brand your safety pads.
